FOREWORD

THIS volume is one of a special edition compiled and printed for the families now residing within the Rural territory as shown by the Location of Maps printed herewith.

The first important feature of the book is a complete list of residents of this territory—your trading center. The information has been compiled by well-trained and careful representatives of the Publishers, and rechecked so that few if any errors can be found.

It will be noted that a considerable number of the names given in the list are printed in capital letters. This method is used to distinguish those who are subscribers to THE FARM JOURNAL; and the large number of them, as well as the evident fact that they are the best known and most highly respected members of the community, is a source of much gratification to the Publishers.

The second and really important main feature of the book named "How to Do Things," is a great collection of facts, methods, ideas, helps, short cuts, handy devices, implements, etc., which have been gleaned from the pages of THE FARM JOURNAL. Some are old because some very old things remain ever new; but most are new, well-tested, and well-adapted to the present day need of the up-to-date farmer.

In particular we have been careful to include many special articles on subjects which are of the highest interest to readers, as proved by the great number of letters and inquiries received by the Editors. Their job of furnishing reliable, helpful, and interesting reading, month after month, to more than 1,000,000 farm families in all parts of the United States, gives them unequalled opportunity for knowing what Farm Folks are interested in and want to know about. Then their great motto is, "Let us ever help and never harm our readers."

This is the sort of reading that has appeared, appears now, and will continue to appear in THE FARM JOURNAL, and which we confidently believe will appeal, friend reader, to you.
